

The Astley Cooper School

Year 12 Production Arts **Summer Bridging Task 2017**

What inspires you to get involved in theatre?

Find a West End Show that inspires you be part of the show backstage in terms of design and construction. You will need to explain in 500 words what it is about the show that inspires you in relation to either the role of set / lighting/ sound/ props/ costume or mask designer. You should try to demonstrate your passion for the subject as well as using the appropriate terminology and use images & reviews to support your comments.

This is a personal piece of writing that gives an insight into why you want to be involved in production arts, there is no right or wrong answer.

In addition to this you will need to create either a lighting design/ costume design/ make up design or set design. You can create a 3D model of your final design. This should be linked to the chosen West End Show.

This will be due in on the first lesson in September.

Happy researching and exploring your key skills!
