

BTEC Level 3 in Art & Design Key Stage 5 Bridging Task

Assignment:

The step between Key Stage 4 to Key Stage 5 is big. A much higher level of independent learning will be expected from you, as well as greater level of focus on your recording and communication skills, which underpin all areas of art and design. You will also have the opportunity to explore a specific sector in art and design including photography, fashion, textiles and fine art.

This mini assignment which is due in in September will test your skills of visual recording and communication and can include elements of any or all of the additional sectors you may be interested in selecting.

You will need to have carried out some independent research on one of the themes below to be able to carry out this task to the level expected.

Please remember that your final piece can be presented with whichever mediums you feel suits; you can paint on the canvas, use inks/oils/dye, weave into them, sew on them, pleat/gather/fray fabric and attach it. You are welcome to use any medium and materials you think will represent your idea best.

You will also need to purchase an A1 canvas through wisePAY at a cost of £15 to present your work on for September. Think big, A1 is a large space to cover!
